DOGS AND DOCTORS.

Curious Case at Tokyo.

About the middle of next month, says
the Japan Times, there will be an assembly
of several dogs at the Tokyo Chiba Saiman-
sho, in connection with a dispute as to the
identity of a dog. The litigation has been
in progress for more than four years, and
the parties concerned have spent more
than a thousand yen, though the dog in
dispute is worth no more than about
Y30. Last year the disputants, Mr. Hideji
Onichi and Mr. Yoshiyasu Mori, both of
whom are physicians, saw the folly of
further continuing the litigation and were
about to give the dog to a third party.
This attempt at compromise, however,
has failed, and litigation has been resumed.
Mr. Onichi, the defendant, now argues
that there are still living the mother,
brother, and sister dogs of the one
originally belonging to him and that the
identity of his dog with the one in dispute
can be established by bringing these dogs
together. The Court has accepted the
proposal and hence the conference of dogs
is about to take place in the law court. The
Court has also asked Dr. Iijima, zoologist,
Dr. Tokisako and Dr. Ishikawa, to witness
the meeting of the dogs, and give a
decision. The interested doctors have accepted
the invitation, so that it will be a conference
not only of dogs but of doctors.

THE LANCERS.

Oh! the lancers, the lancers.
That whirling of dancers!
How you ring yourself with rapture in the
vortex of the whirl!
How the time grows nimbly charming,
As you seize a spinning anafel
Of parabolizing frillies that was once a
stately girl!

With your beeps hard as iron,
You sustain each breathless siren,
And you feel a hero's passion for the
hottest of the fight.

Up the parquet you go ramping,
To a sound of frenzied stamping,
And you nearly lost your bearings, till the
music pulled you right.

When you rally for the "charging,"
For the scrimmaging and bargaining,
Your career by sillon remnants you can
usually trace;

But your partner, you can trust her,
When her "corner" is turned and
thrust her,
To return like ruffled pigeon to the ark of
your embrace.

Till your manly brow is dripping
With your tripping and your gripping
In the final complication till the throbbing
music's done.

Then your partner's sage advice is
To secure two full-grown icos.
And you patch each other's tatters and
proclaim it ripping fun!

A SAFE REMEDY
FOR ALL
SKIN AND BLOOD DISEASES

If you suffer from any disease due to an im-
pure state of the blood, such as eczema, cancer
anemia, you should test the value of Clarke's
Blood Mixture, the world-famous Blood Purifier
and Restorer. This medicine has 40 years'
reputation, and is to-day more popular than
ever, the reason of this being undoubtedly
because this wonderful remedy does what all
preparations to date cannot cure skin and blood
diseases permanently.

Clarke's Blood Mixture

IS THE FINEST BLOOD PURIFIER
EVER DISCOVERED.

It is warranted to cleanse the blood from all
impurities, from whatever cause arising. For

SCROFULA, BAD LEGS,
SOREY, BLOTCHES,
ROZEMA, SPOTS,
BLOOD POISON, BLACKHEADS,
ULCERS, PIMPLES, and
SKIN & BLOOD SORES OF ALL
DISEASES. KINDS.

It is a safe and Permanent Remedy.
It is the only real specific for Gout and
Rheumatic Pains, for it removes the cause from
the Blood and Bones.

NOTE. This mixture is pleasant to the taste
and warranted FREE FROM ANYTHING
injurious to the most delicate constitutions.
It cures skin diseases, which are so often
the result of impure blood, and the
Proprietors solicit sufferers to give it a trial to
test its value.
Thousands of wonderful cures have been
effected by it.

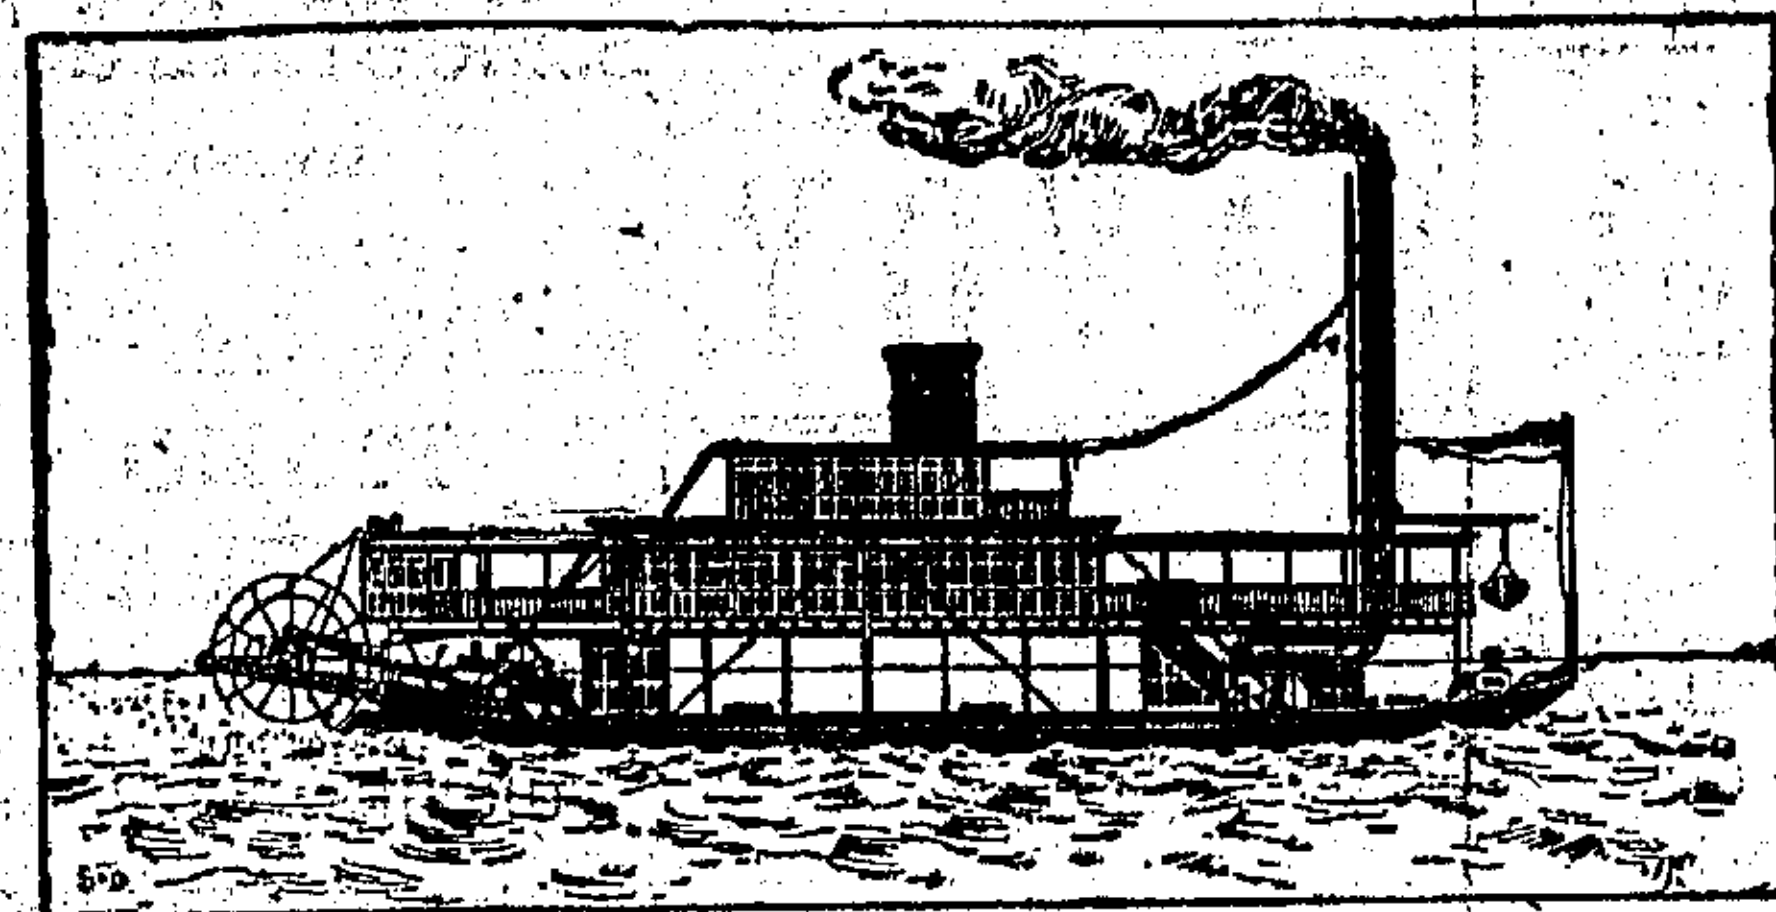

TRIED MANY THINGS WITHOUT
BENEFIT UNTIL I TOOK
CLARKE'S BLOOD MIXTURE.
Mr. F. E. Lewis, 48, Bridge Street, New
Orleans, writes:—Just a line in favour of
"Clarke's Blood Mixture." I had eczema for
seven months, and tried many things without
benefit until I took your remedy. After the
eighth bottle I was quite well cured. Please
accept of this letter as token of gratitude to your
wonderful "Clarke's Blood Mixture."—June
18, 1905.

IMPROVEMENT IN THE BLOOD.—We have seen
hundreds of letters from all sorts and conditions of
people, in which the writers acknowledge the
benefit they have received from Clarke's Blood
Mixture, which as a curative agent cannot be too
highly estimated, since it cleanses and cures the
blood from all impurities, and restores it to its
normal condition. This is a good testimonial
from the Family Doctor, the popular
medical writer, who goes on to further say:
"It is certainly the finest blood purifier that
science and skill have brought to light, and we
can with the utmost confidence recommend it to
our subscribers and public generally."

LORD CROMER.

The resignation of Lord Cromer, while

not altogether unexpected, brought it

British Government face to face with a

delicate problem. For a quarter of a

century Lord Cromer has been, literally,

the power behind the Khedive's throne.

As we stated a few days ago the task

has been anything but a grateful one,

and it has been rumoured more than

once that Lord Cromer had expressed

a desire to be relieved of his office.

Although Sir Edward Grey heartily

supported him when the trouble over the

Denahaw executions occurred it can

hardly be that the British Agent in

Egypt has lately felt such entire confi-

dence that the Government would

steadily uphold him as he did when the

Unionists were in power. It is no

secret that the British Prime Minister

and many members of the Cabinet dis-

approve of our position, apropos Egypt.

Lord Cromer has the reputation of being

a zealous and masterful man and it may

easily be imagined, although he declares

that such has not been the case, that he

would not tolerate the pressure which

the Government may have been forced,

through the insistence of some of its

radical supporters, to bring to bear upon

him. This of course is merely supposi-

tion. It may be that Lord Cromer's

health has really given way—he is not

a young man and the climate of Egypt

is not particularly salubrious. In any

which might arise, but a weaker man

might, by taking the line of least resis-

tance, have helped to destroy the fabric

which Lord Cromer has so indefatigably

striven to raise.

LOCAL AND COAST NEWS.

The German Mail of the 13th March

was delivered in London on the 12th April.

The trouble with the Philippines is that

in the matter of self-government every

man wants to be the self, says the *Manila**Herald*.

The Arsenal outside the eastern bar-

rier of Kirin and the forts at Lienhu

which were occupied by Russian troops

during the Russo-Japanese War, have been

returned to China.

The Viceroy of the Mincho Province

has submitted a memorial to the Throne

stating the advisability of transferring the

control of the Foochow Naval Arsenal to

Mr. Hu Kuo-Hen, and it is hoped that a

high official will be sent as superintendent.

A proposal is on foot for the creation

of a Special Finance Committee, the busi-

ness of which will be to draw up a Budget

for China. Grand-Councillors Na Tung

and Lu Chuen-ling are spoken of as prob-

able President and Vice-President respec-

tively.

Over twenty members of the Peking

Syndicate have asked the Governor of

Shansi for passports with which they

intend to make a tour throughout Shansi

Province, but the Governor fearing that

people may suspect them if they travel in

such a large number will not issue the

Wai-pu requiring that the matter should

be discussed with the British Minister, and

the members requested to travel separat-

ly.

The Zigzags.

The Zigzags are giving a good enter-

tainment at the Theatre Royal. The

programme is being repeated to-night.

May Road.

A new road from Magazine Gap Road

to the Peak Road near Queen's Gardens

has been named May Road. It is not yet

open to traffic.

Instead of Cement.

It is reported in Japan that *kenzo tai*

(volcanic ash) can be employed as a sub-

stitute for builders' cement. Large quan-

tities have been found in the district of

Yokohama, near Kamatsu, says the *Nagasaki**Press*, and a brisk demand for it has been

created by the great increase in the price

of cement. Hitherto the business has

been conducted on a very small scale but a

company will shortly be formed with a

capital of one million yen to develop the

industry. Dr. Hiraga, of Osaka, recently

inspected the district and he reports that

the prospects of the company are distinctly

good.

Temple Robbing.

The following deplorable incident, says

the *China Critic*, occurred recently in one

of the most important temples at Peking.

THE KWANGTUNG FAMINE.

Rice from Kwangsi.

(From a Correspondent.)

CANTON, April 12.

An official letter has come to Canton from Ping Lok, in Kwang Si, sent on by the Guild of Kwangtung merchants, in which it is said that there are in that district considerable quantities of rice, more than will be needed for local consumption, and suggesting that steps be at once taken to have some transported into the lower Province. It seems that this is a task by no means easy. First of all the Governor of Kwangsi must be approached, and he must give his consent, ere anything of the kind can be done. Then the Vice-roy of Canton must write out papers giving freedom of pass to those who will go up onto Kwangsi to get the rice. When these matters are settled, those fortunate to-day they can be settled by telegraph, it is hoped that the present pressure will be considerably eased. The quantity available is said to be no less than two hundred thousand sh. A sh. is regarded as a very large measure, is a 100 pints; if as a weight, it contains 120 catties. The amount therefore is considerable in any way. It would seem as if in the lower district rice is still stored up in great quantities, in case of emergency, for the tons of the despatch seems to indicate that this mass is in store, and a reference is made as to its being spoiled if it is kept much longer, where, and as it is.

BRITISH RULE IN EGYPT.

Independent Testimony.

So much has been said against the policy of the British in Egypt that considerable interest naturally attaches to any testimony coming from an absolutely independent source. Mr. A. B. de Guerville, a Frenchman, who is the author of a book called "New Egypt," is hardly likely to be an Anglophile. Yet in the February number of the "Portuguese Review" he writes thus:

I have passed the last two winters in Egypt and the Sudan, and have been in daily contact with all classes of the population there, studying the subject with the greatest interest, and the most absolute impartiality. Now, I have arrived at the conclusion that from the bottom to the top of the social scale, the inhabitants of the country, the very great majority of the inhabitants, recognize the work achieved by England, pay her a real debt of gratitude for their present prosperity, and are perfectly satisfied with the existing state of things. Of this there cannot be any doubt.

We find Egypt rich and prosperous; a great portion of her debt paid, an admirably adjusted budget; her revenues increasing enormously, regularly every year—and that in the face of the fact that the public works, works which daily augment the wealth of the country. Agriculture is advancing by leaps and bounds, while commerce and industry develop and increase with a rapidity unparalleled in the history of the world. A well-organized network of railways, steam navigation, telegraphs, telephones, and excellently maintained canals, spreads over the country. Schools of every kind have been opened—primary, secondary, and higher schools, technical, commercial, and medical schools. The fellow works quietly and happily on his land, and the woman is growing rich, while business prospers increasingly for one end of the country to the other. From the mouths of the Nile, from Alexandria to the great lakes of central Africa, all across Egypt, Nubia, and the Sudan, peace and quiet reign everywhere. And—strange as it seems—all this results have been obtained, not by increasing the taxes, but on the contrary, by reducing, and even in some cases abolishing them altogether.
